**MICHAEL D'AURIA NAMED ZWICKER ELECTRIC'S
SENIOR VICE PRESIDENT OF OPERATIONS**

Industry Leader Brings Wealth of Experience and Electrical Expertise to the Position

NEW YORK, MARCH 2015 — One of New York's most respected and influential electrical contractors, Zwicker Electric Company, Inc. has named Michael D'Auria as the company's Senior Vice President of Operations.

"For the past 15 years, Mike D'Auria has contributed to Zwicker's growth in the construction industry," says David B. Pinter, President and CEO of Zwicker Electric, "He has excelled throughout his career with Zwicker, and we're excited to have him expand his skills and his experience as our Senior Vice President of Operations."

In his new role, D'Auria is responsible for overseeing the direction and completion of Zwicker Electric's new construction projects. The firm, which has built its reputation as one of New York's most reliable and capable electrical contractors, specializes in a range of markets and project-types, including commercial, residential, healthcare, retail and hospitality.

D'Auria began his career with Zwicker Electric as a Project Manager before becoming Vice President. He has worked on signature projects such as 3 World Trade Center and Goldman Sachs, among many others. He brings over 30 years of hands-on experience to his work, and he will now lead Zwicker Electric's frontline staff for engineering, value engineering and project management.

D'Auria, 54, has a Bachelor of Science Degree from Fairfield University, an Electrical Engineering Degree from Fairleigh Dickinson University and a Juris Doctor Degree from New York Law School. D'Auria and his wife, Jennifer, and their two children, Ryan and Taylor, live in Westchester County.

ABOUT ZWICKER

Zwicker Electric Co., Inc. is one of New York's leading core and shell, base building, and interior electrical contractors. The company's unique design services and exemplary project completion track record distinguish the firm as one of the most reliable and highly-respected electrical contractors in the industry.
